Have students first think about answers individually, then discuss with a partner, and finally share with the class. This encourages peer learning and confidence in articulating answers.

Use of Think-Aloud Strategies

Model your thinking as you solve textbook questions, demonstrating how to approach answers methodically.

Create Answer Maps

Guide students to develop flowcharts or concept maps that outline steps for answering typical

Regular assessments help gauge student understanding of how to construct correct and well-reasoned answers. Consider:

- Quizzes focusing on explanation and justification
