All managers in the company are required to attend quarterly meetings. John is a manager. Based on this information, can we conclude that John attends quarterly meetings?

Answer:

Reasoning:

This is a straightforward inference based on a universal statement. The key is recognizing the universal requirement.

Recognition of Assumptions

Sample Question:

Statement: The new software update will improve productivity.

Assumption?

- a) Employees are willing to adopt the new software.
- b) The software update contains new features.
- c) Productivity is currently low.
- d) The update was implemented last month.

- a) Employees' willingness to adopt is an unstated assumption necessary for the update to improve productivity.

Reasoning:

Without employee buy-in, the update may not lead to productivity gains, making this a critical unstated assumption.

Deduction

Sample Question:

If all staff who attend the training pass the exam, and Sarah attends the training, what can we deduce?

Answer:

- Sarah may pass or fail; the statement does not specify her outcome.
