- Trade allows countries to specialize according to their comparative advantages.

- Emphasize the concept of mutually beneficial trade.

Chapter 4: Trade Policies and Welfare

- Consumers face higher prices and reduced consumption.
- Domestic producers may benefit from increased sales.
- The government gains revenue from the tariff.
- Deadweight loss occurs due to reduced efficiency and lost gains from trade.

- Overall welfare may decline because the gains to producers and government are often offset by losses to consumers.
