Understanding the Purpose of an International Cosmetic Ingredient Dictionary

What Is an International Cosmetic Ingredient Dictionary?

An international cosmetic ingredient dictionary is a standardized compendium that catalogs ingredients used in cosmetic and personal care products across different countries and regions. It provides detailed descriptions, chemical compositions, functions, safety information, and regulatory statuses of various ingredients. Such dictionaries aim to harmonize the understanding of ingredients amidst diverse naming conventions, regulatory requirements, and cultural differences.

Why Is It Important?

- **Standardization:** Different countries often have varying names for the same ingredients. A centralized dictionary ensures consistent terminology.
