### Types of Questions in the LLQP Exam

- Multiple-choice questions with four options each

- Case-based scenarios requiring application of knowledge
- True/False questions (less common in some versions)

A typical exam covers modules such as:

- Life Insurance Basics
- Disability and Critical Illness Insurance
- Retirement Savings and Investments
- Ethics and Professional Conduct
- Canadian Insurance Laws and Regulations

## Sample LLQP Exam Questions by Module

To give you a clear idea of what to expect, below are representative questions from key modules, along with detailed explanations of the correct answers.

### Life Insurance Basics

#### Question 1:

Which of the following best describes a term life insurance policy?

- A) Provides coverage for a specified period and pays a death benefit if the insured dies during that period.
- B) Accumulates cash value over time and offers a savings component.
- C) Combines life coverage with investment options and has a flexible premium structure.
- D) Offers a guaranteed death benefit with no cash value component.

Answer: A) Provides coverage for a specified period and pays a death benefit if the insured dies during that period.

#### Explanation:

Term life insurance is designed to provide pure death benefit protection for a set period (e.g., 10, 20, 30 years). It does not build cash value, unlike whole life or universal life policies. Option B describes a whole life policy, while Option C refers to universal life, and Option D is not accurate because term policies do not typically guarantee a death benefit beyond the term.

## Disability and Critical Illness Insurance

### Question 2:

Which statement accurately describes the primary purpose of critical illness insurance?

- A) Provides income replacement if the insured becomes disabled.
- B) Offers lump-sum benefits upon diagnosis of specific serious illnesses.
- C) Covers medical expenses related to critical illnesses.
- D) Acts as a savings account for future medical costs.

Answer: B) Offers lump-sum benefits upon diagnosis of specific serious illnesses.

### Explanation:

Critical illness insurance pays a lump sum upon diagnosis of covered illnesses such as cancer, heart attack, or stroke. Its purpose is to help cover expenses related to the illness, such as treatment costs or income replacement, but its primary feature is the payment of a lump sum rather than ongoing income.

## Retirement Savings and Investments

### Question 3:

In a registered retirement savings plan (RRSP), contributions are:

- A) Deductible from taxable income in the year they are made.
- B) Taxable when withdrawn.
- C) Not subject to taxes at any point.
- D) Only allowed if the individual is over age 50.

Answer: A) Deductible from taxable income in the year they are made.

### Explanation:

RRSP contributions are tax-deductible, which reduces your taxable income for the year of contribution. Taxes are deferred until withdrawal, at which point the funds are taxed as income. Option B describes the tax treatment of withdrawals, not contributions. Option D is incorrect because RRSP contributions are available to individuals under age 50; the contribution limit is set annually.

## Ethics and Professional Conduct

### Question 4:

An insurance agent recommends a policy that benefits the agent financially, even though it may not be in the client's best interest. This behavior is considered:

- A) Ethical and acceptable if the agent discloses the benefit.
- B) A conflict of interest and a violation of professional ethics.
- C) Standard practice in the insurance industry.
- D) Permitted if the client signs a waiver.

Answer: B) A conflict of interest and a violation of professional ethics.

### Explanation:

Agents are ethically obligated to act in their clients' best interests, avoiding conflicts of interest. Recommending a policy primarily for personal gain, without full disclosure or consideration of the client's needs, breaches ethical standards and professional conduct rules.

## Canadian Insurance Laws and Regulations

### Question 5:

According to Canadian law, who is responsible for licensing and regulating insurance agents?

- A) The federal government through the Department of Finance.
- B) The provincial insurance regulators.
- C) The Canadian Insurance Association.
- D) The individual insurance companies.

Answer: B) The provincial insurance regulators.

Explanation:

Insurance regulation in Canada is primarily a provincial responsibility. Each province has its own regulatory authority, such as the Financial Services Regulatory Authority (FSRA) in Ontario, overseeing licensing, conduct, and compliance.
