Techniques include:

- Inhaling slowly through the nose for a count of four.
- Holding the breath for a count of four.
- Exhaling slowly through the mouth for a count of four.

3. Observe

This step involves paying attention to your thoughts, feelings, and physical sensations without judgment. Recognizing the signs of anger early allows for better regulation.

Questions to consider:

- What am I feeling right now?
- Where do I notice tension or heat in my body?
- What thoughts are running through my mind?

4. Proceed

After pausing to observe and calm, you can choose how to respond constructively. This might include communicating assertively, taking a break, or employing other coping strategies.

Strategies include:
