- Area of two semi circles: πr^2
- Area of the rectangular faces: length $\times$ width (depends on the height and diameter of the semi circles)

Total Surface Area:

[

$$SA = \pi r^2 + \text{perimeter of semi circle} \times \text{height}$$

]

Note: The perimeter of a semi circle (including the straight edge) is $\pi r + 2r$.

Volume

The volume of a semi circle prism is calculated based on the area of the semi circular base and the height (length of the prism).

Formula:
