Sample High-Scoring Answer

Recycling is an essential practice in today's environmentally conscious society. It helps reduce waste, conserve natural resources, and protect our planet for future generations. I believe that everyone has a role to play in promoting recycling habits.

Firstly, recycling reduces the amount of waste sent to landfills, which in turn decreases land pollution. For example, by recycling paper, plastic, and metal, we can significantly lessen the burden on waste disposal sites. Secondly, recycling conserves natural resources such as trees, minerals, and water, which are often exploited at unsustainable rates.

Furthermore, engaging in recycling activities fosters a sense of responsibility among individuals and communities. Schools and organizations can organize campaigns to raise awareness about the importance of recycling. In my opinion, if more people adopt recycling habits, we can create a cleaner and healthier environment.

In conclusion, recycling is crucial for environmental preservation. It requires the collective effort of everyone to make a difference. By recycling more, we are contributing to a sustainable future.
