The Evolution of French Prints

French printmaking has a storied history that dates back to the Renaissance, with significant developments during the 17th and 18th centuries. The invention of the lithograph by Alois Senefelder in 1796 revolutionized printmaking, making it more accessible and allowing for the dissemination of art and ideas on an unprecedented scale. Artists like Hokusai, Hiroshige, and Utamaro created iconic images that combined technical skill with poetic storytelling. Ukiyo-e's influence extended beyond Japan, impacting Western artists during the Japonism movement in the late 19th century.
