Emergence of Dedicated Environmental Legislation

The 20th century marked a turning point, with countries enacting specific laws:

- The National Environmental Policy Act (NEPA) in the United States (1970)
- The Environmental Protection Act (EPA) in the UK
- The Water (Prevention and Control of Pollution) Act and Air Act in India

This wave of legislation laid the groundwork for more structured legal approaches to environmental issues.

International Environmental Law

Parallel to national laws, international treaties and conventions began shaping global environmental

governance, including:

- The Stockholm Declaration (1972)
- The Rio Declaration (1992)
- The Paris Agreement (2015)

Myneni's work reflects these developments, emphasizing their integration into domestic legal systems.
