Introduction to the Pharaohs of Ancient Egypt

The term 'Pharaoh' originates from the Egyptian word *per-aa*, meaning 'great house,' which was initially used to refer to the royal palace but eventually came to symbolize the ruler himself. Historically, the role of the Pharaoh was not merely that of a monarch but also a divine intermediary between the gods and the people. The Pharaoh was considered the living embodiment of the gods on earth, especially Horus and later Osiris, and was responsible for maintaining *ma'at*, the cosmic order, truth, and justice.

The period of ancient Egypt spans over three millennia, from the Early Dynastic Period (~3100 BCE) through the Ptolemaic era ending in 30 BCE with Cleopatra VII. Throughout this long history, Pharaohs played a pivotal role in shaping Egyptian culture, politics, and religion. Their reigns are characterized by monumental building projects, elaborate burial practices, and a rich tradition of art and literature.
