What Are the "Twists" in IELTS Questions?

The Concept of a Twist

In the context of IELTS, a "twist" refers to a question or statement designed to mislead or challenge the candidate?s understanding. These twists often involve:

- Contradictory information: The question may include statements that seem correct but contain subtle inaccuracies.
- Implied meanings: Sometimes, the true answer is implied rather than explicitly stated.
- Distractors: Extra information that distracts from the main point.
- Rephrased questions: Questions that paraphrase the passage or audio, requiring careful analysis to match the correct answer.

Common Forms of Twists

- Multiple-choice questions with similar options: The options are closely related, making it easy to select the wrong answer.
- Matching headings or information with subtle differences: The headings may seem appropriate but contain nuances that change their applicability.
- Fill-in-the-blanks with tricky distractors: Words or phrases that seem correct but are slightly off.

- True/False/Not Given questions: Statements that are partially true or require inference, adding complexity.
